What our customers are saying...

"We constantly evaluate how we can better manage and upgrade our data and tools as well as make the interface more intuitive and easier to use for our employees and our [residents]," Our partnership with Cyclomedia has accelerated our digital transformation to a smarter city not only by empowering Property Appraisal staff with accurate information, actionable insights but also through best in class cloud-based enterprise-wide access."

- Brian Ivey, GIS Manager; Office of Innovation and Technology (OIT); City of Philadelphia, PA

"Across the state there are approximately 100 counties. I can say with 100% confidence that adding Cyclomedia technology to our portfolio of assessment tools has enabled us to be at par, or even exceed, the productivity of similar sized counties with field personnel up to 20% larger."

- Keith Miller, Tax Assessor; Buncombe County, NC
